

**Grain Valley Schools
AMI Day 1 ~ 4th Grade**

**Please complete the activities and return
them to your teacher.**

Name: _____

Directions: Write a story about your ideal snow day. This can be in a paragraph or comic strip form.

A large, empty rectangular box with a thick black border, occupying most of the page. It is intended for the student to write their story or draw a comic strip about their ideal snow day.

Rounding to the Same Number

What You Need

- Recording Sheet

What You Do

1. Take turns. Pick a number from the Number Bank on the **Recording Sheet**.
2. Round the number to the place at the top of each table. If your rounded number matches the number at the top, write it in the table. Some numbers round to a number in more than one table.
3. Your partner checks your work.
4. Repeat until all the numbers from the Number Bank have been used.

To round a number, I first find the number halfway between two values. I know that 150 is halfway between 100 and 200. That helps me decide if 3,166 rounded to the nearest hundred is 3,200 or 3,100.

Check Understanding

Round 2,511 to the nearest thousand.

Go Further

On a separate sheet of paper, write a number that you can round to both 8,300 and 8,000. Name the place you used for each rounding. Exchange papers with your partner to check.
